

## Our customers are saying...

Clinic Pro Chiropractic is fantastic! It is great to have consistent cash flow and monthly reports that are easy to read. Dr. Edward Plentz III, Partner, New Renaissance Organization

I left a company that was gouging me for every cent! I was so green back then and so happy just to submit electronically. I feel like I have a lot of brothers and sisters at clinic pro. Your patience has helped me maintain and grow with patients. THANKS ALOT! Keith O'Connell D.C.

We have run our office with Clinic Pro for four years. We had prior experience with a different software company and complained a lot about the lack of support. We're busy and can't afford to be down for any reason. With Clinic Pro, we're never down and there's always someone available to answer our questions. We love the personal support! Dr. Eugene Jary

When we purchased Clinic Pro, we had claims backed up one year from our old software. We caught up one year's worth of Medicare electronically and collected lots of "old money." It was like Christmas every day for a month! Dr. Robert Koch

I just wanted to let you know that our billing is working out wonderfully and I personally really like this new program. I know there will be upgrades to improve on it even more, but I am enjoying working with it now also. Our receptionist is even getting the hang of it all and learning that this is much better than the old program. Good Work! Chris

I have looked at and purchased other software programs prior to Clinic Pro. Nothing compares to its ease of use, great technical support and commitment to the chiropractic profession. It's the best 'bang for the buck' on the market. Dr. Fred Vogel

## Clinic Pro Chiropractic Software

- ◆ FREE electronic claims direct to BCBS and Medicare
- ◆ Annual support includes FREE upgrades
- ◆ Integrated appointment book
- ◆ Plain-paper HCFA forms

## Run Your Clinic with the Pro -- Clinic Pro Chiropractic

Clinic Pro Practice Management...\$2,995

Clinic Pro + EMR..... \$4,995

This is the full practice management program with appointment scheduler, insurance billing, management reports, mail-merge letters, narrative writer, SOAP notes, patient statements. Clinic Pro Chiropractic allows you to have an appointment book loaded in the background while running patient statements or creating a special patient letter or doing billing.

Clinic Start Level 2.....\$1,205

Level 2 + EMR .....\$3,305

Clinic Pro Start contains all of the features of Clinic Pro except that data entry is limited to 500 patients. By the time you reach the limit on Clinic Start, your practice can afford the next step, Clinic Pro. Clinic Start is so easy to use that doctors even enjoy running the computer! Includes 6 months support.

Clinic Start Level 1 .....\$ 705

Level 1 + EMR.....\$2,805

This is the starter version of Clinic Pro with all of the features but limited to 250 patients. As you grow, pay the difference and move up to Clinic Start Level 2. Includes 6 months support.

**Clinic Pro EMR..... \$2,995**

Use a touchscreen, tablet PC or a mouse. Record your exam findings and ongoing encounters by touching a button. Orthopedic/neurologic tests, x-ray exams, muscle testing, range of motion, reflex testing, etc. The Clinic Pro EMR even includes applied kinesiology and sports medicine documentation in addition to the standard orthopedic/neurologic exams.

### Clinic Pro Features:

- **User Defined Security Levels/ Passwords** allows tracking of all transactions and keeps all confidential information secure
- **Fully-integrated appointment book** with color coding and immediate access to future appointments; missed appointment tracking; wait list; reminder list; user-defined printout
- **Transaction screen with full editing capability** -- click on the services rendered and correct mistakes immediately; access HCFA fields not usually printed
- **Print patient statements** one statement per family (calculates family deductibles as needed as well) with complete explanation of transfers and write-offs; prints on plain paper or preprinted statements
- **Aged insurance and patient receivables**, income statistics, practice analysis
- **Mail merge letters** —you write to patients with letters you can customize
- **Multiple fee schedules**—to track non participation and automatically bill the correct fee

- **FREE Electronic claim submission**
- **Voice recognition software** integrates with the Soap Notes module
- **Transaction screen with full editing capability** -- click on the services rendered and correct mistakes immediately
- **Print patient statements** with complete explanation of transfers and write-offs
- **Aged insurance and patient receivables**, income statistics, practice management reports
- **Accommodates unlimited doctors** with reports and statistics for each doctor
- **Mail merge letters** you write to patients you specify

### Hardware Recommendations:

Pentium 4 at 1 gig or faster; 80+ gigabyte hard drive; 1 gig RAM; Super VGA color monitor; 56k baud modem; Windows XP or Vista, Mouse; Laser jet or desk jet printer.

The above configuration is the minimum configuration if you are buying new equipment (this configuration should cost approximately \$1,100-\$1,500)
